

Tableau Installation Guide and DataSets

Software Installation

We need to install following two softwares for Tableau Hands on Session.

- 1) Tableau Prep (A tool for data preparation)
- 2) Tableau Desktop (A tool for Dashboard Design)

Please visit following URL for downloading both.

<https://www.tableau.com/academic/students>

Please download both software. You will be asked to fill in the form. Please start the trial version as well as apply for student license so your Tableau keeps working after the expiry of trial.

Datasets

We use two following datasets for hands on session

Facebook Data from a Festival
