I am a motivated BBA Finance graduate from Amity University Raipur, eager to apply my academic knowledge and passion for finance in a professional setting. I possess foundational expertise in accounting and financial analysis, enhanced by hands-on experience with Tally and other financial tools during my internship under a chartered accountant. As a detail-oriented and quick learner, I am keen to contribute to dynamic teams, acquire practical skills, and grow within the finance domain. Currently, I am actively seeking internship opportunities to deepen my understanding of financial management and risk analysis
