

Professional Summary

Mechanical Engineer with MBA in Operations Management and 28 years of experience in Refinery, Storage Terminal, and Water storage projects.

Planning, Construction, Inspection, Testing, and Commissioning of Tank farm projects for ADNOC, IOCL, NFL, IFFCO, ESSAR, and US Army Corps of Engineers, And Water storage Projects for Google, Fujifilm, and Public Works Authorities of United States and the Cayman Islands (British Territory).

Key Skills

- Project Execution Planning, Resource Management, Budget and Cost Management, Construction Management, Project Documentation, Compliance and Safety.
- Conversant with the Construction, Inspection, Testing, and Commissioning of large-diameter fuel Storage Tanks, Cut and Cover Tanks, Glass-fused-to-Steel bolted tanks, Geodesic Domes, and Process Piping including Tie-ins and associated Civil and Structural works.
- Conversant with API 620, API 650, API 653, ASME-IX, ASME B31.3, AWWA D103
- Conversant with FIDIC, BIM360, Autodesk, HammerTech, MS Project, MS Office

Educational Qualification

- Master of Business Administration in Operations Management from ITM, Mumbai, India in 2014
- Bachelor of Mechanical Engineering from American University, Dubai, UAE in 2007
- Diploma in Mechanical Engineering from BVVS College, Karnataka, India in 1992

Certification

PROJECT MANAGEMENT

- Pursuing Executive Certification Program in Advanced Project Management from Indian Institute of Management (IIM), Visakhapatnam, India since Jul 2024
- PMP Certification Training (37.5 Hrs) from The Knowledge Academy, Mumbai, India – 2024
- PMP Certification Training (36 hrs) from MSME (Govt of India) in Mumbai, India – 2015
- Primavera (Engg & Const) 102 (Basic), 106 (Advanced) training in Mumbai, India - 2008

HEALTH, SAFETY, AND ENVIRONMENT

- OSHA - Steel Erection (Subpart R), USA – 2024
- Fall Protection Competent Person - EM385 (24 hrs) training in USA – 2024
- OSHA 30, OSHA 10, OSHA MEWP Aerial Lift, USA - 2023
- OSHA - Competent Person (Confined Space, Fall Protection, Scaffolding), USA – 2022
- Managing Safely (IOSH) in Abu Dhabi, UAE - 2008

OTHERS

- Google AI Essentials - 2024
- TOEIC Bridge Test, Cayman Islands (British Territory) – 2023

Member

- PMI (Project Management Institute) - 4152083

Achievements

- Outstanding Performance Award from US Corps of Engineers for Army project at Bagram Air Base, Afghanistan in 2010

Work Experience:

1. **Project Consultant** (May 2014 to till date) **United Industries Group, California, USA**

Nature of Projects

- EPCC of Water storage Projects for Google, Fujifilm, and Public Works Authorities of United States and Cayman Islands (British Territory).

Job Responsibilities

- Installation, Inspection, Testing and Commissioning of Glass-fused-to-Steel bolted tanks, Geodesic Domes and construction of associated Civil and Structural works.
- Planning and Coordination of all activities relating to the project.
- Preparing status reports by gathering, analysing, and summarizing relevant information.
- Obtaining customer acceptance of project deliverables.

Project Locations

- United States (Oregon, Kentucky, Tennessee, South Carolina, North Carolina and Montana)
- Cayman Islands (British Territory),
- Tinian Island, Guam and American Samoa (US Territory)

2. **Project Manager - PMC** (Oct 2012 to Jan 2014) **MUC Oil & Gas Engineering Consultancy, Sharjah, UAE**

Project : IL&FS Prime Tank Terminal a USD 115 Million project at Fujairah, United Arab Emirates consisting of Civil & Structural works, Mechanical & Piping works, Jetty Lines, Storage Tanks & Pressure Vessel works, Electrical, Instrumentation and Fire Fighting works, Testing & commissioning.

Job Responsibilities

- To assist the Owner in a timely completion of the project within the specified budget as per good industry practices and quality standards.
- Project and Construction Management
- Liaise with the Local Authorities and other service providers to support the Contractor in the acquisition of the relevant NOC's, Permits, Licences and approvals.
