Projects and Work

- **ASX Bills and Bonds Trading:** Trading in ASX 90 day bills futures, 3 Year and 10 Year bonds; mostly intraday with a mix of position trading.

- **Algorithmic Trading:** Various algorithms were used in trading so as to provide an extra edge with speed and accuracy over naïve human traders.

- **Algorithm Development:** Various algorithms were used for designing and implementing new trading strategies in order to automate the process.

- **Financial Inclusion (Internship):** Designing and development of digital which included preparing SRS document followed by development in Java.

- **Advantage Cards (N.G.O) :** The project consisted of issuing advantage cards to senior citizens so that they can avail discounts from various outlets. It also included dealing with vendor side to involve more outlets and vendors who support this scheme.
