Projects and Work

- **ASX Bills and Bonds Trader:** Trading in ASX 90 day bills futures, 3 Year and 10 Year bonds , mostly intraday with a mix of position trading.

- **Algorithmic Trading:** Used various algorithms for trading in order to achieve speed and accuracy which is not possible with human hand.

- **Algorithm Development:** Developed various trading algorithms to design and implement various new strategies which are also working in the absence of the trader.

- **Financial Inclusion (Internship):** Project consisted of designing and development of digital wallet. Initially SRS was made, followed by development.

- **Advantage Cards (N.G.O) :** This project involved issuing advantage cards to 60+ aged people with the help of which they can avail discounts from various outlets . Adding various outlets and vendors to the list was also involved.
