Accomplished professional having over 26+ years of experience in fast-paced, high-tech environment; specifically in managing Plant Operations, Production, Manufacturing, Product development, Innovation, Quality, Machine Programming and Maintenance, Warehouse Management, Customer Interactions and Industrial Relations. Self-motivated, analytical and logical decision maker and an innovator and thinker by nature.

EXPERIENCE

Plant Head, 04/2019 - Current

Ace Hygiene Product Pvt. Ltd (Alfaa UV), Pune.

- Overall Operations Management: Ensuring smooth and efficient functioning of the entire manufacturing plant
- This includes overseeing production processes, quality control, and maintenance activities
- Production Planning and Scheduling: Developing production plans, setting targets, and scheduling production activities to meet demand while optimizing resources and minimizing costs
- Resource Management: Managing human resources, equipment, materials, and facilities to ensure optimal utilization and efficiency
- Recruit, train, and supervise staff, as well as maintain equipment and infrastructure
- Quality Control: Ensuring that products meet quality standards is crucial
- Oversees quality control processes, implements quality assurance measures, and addresses any issues related to product quality or defects
- Health, Safety, and Environmental Compliance: Maintaining a safe and healthy work environment
- Ensuring compliance with health, safety, and environmental regulations, as well as develop and implement policies and procedures to mitigate risks
- Cost Management: Monitors expenses, identifies areas for cost reduction or efficiency improvement, and implements measures to control costs without compromising quality or safety
- Continuous Improvement: fosters a culture of innovation and continuous improvement, encouraging feedback from employees and implementing process optimization strategies
- Customer Satisfaction: Meeting customer expectations in terms of product quality, delivery times, and service
- Monitors customer feedback, addresses any issues or complaints, and strives to enhance customer satisfaction
- Strategic Planning: Contributing to the development of long-term strategic plans and goals for the manufacturing plant
- Collaborate with senior management to align plant objectives with overall company strategies
- Supervises and reviews all quality system documentation related to QMS for production as per ISO 9001
