

SIDDHARTHA JAIN

SUMMARY

Dynamic and seasoned software development leader with over 15 years of experience in the investment banking sector. Proficient in software development, release management, and Scrum practices, I have a proven track record of delivering critical projects on time and managing seamless migrations. I possess a keen ability to inspire and lead cross-functional teams, fostering a culture of collaboration and innovation. As a Scrum manager, I drive agile adoption and continuous improvement, ensuring optimal team performance. Certified in PSM and AWS Solution Architect Associate, I bring a blend of technical expertise, strategic vision, and exceptional leadership to excel in an Engineering Manager role.

EXPERIENCE

VP/Tech Lead, 04/2020 - Current

Macquarie Global Services - Gurugram

As the DevOps Tech Lead in EDT (Equities derivatives and trading) Group, I manage and contribute to the architecture and development of our electronic market warrant trading platform. My role involves overseeing CI/CD pipelines, manage releases, and serving as the Scrum Master for our Agile team. Additionally, I have played a key role in multiple successful migration of legacy systems and database migration from Sybase to MS SQL Server for other supporting systems.

AVP/Application Owner, 09/2017 - 03/2020

Macquarie Global Services - Gurugram

In this role, I served as the Application Owner and DevOps Lead for the CDB application, a critical tool for setting up client, account, and settlement information for cash equities trading operations. I managed BAU activities, new development requests, changes and environment setup. Day-to-day, I ensured the application's stability, monitored performance, and resolved issues promptly.

Analyst Programmer/ Developer, 08/2011 - 08/2017

Bank Of America (BACI) - Gurugram

Led multiple projects, including CorporateController website, enabling efficient data management for Regulatory Reporting. Managed offshore team, facilitated stakeholder communication, and oversaw development tasks. Contributed to various projects over seven years like RegW, SSRS reporting, Pulse application, SRG app etc, showcasing adaptability and proficiency across domains.

Software Developer, 01/2008 - 07/2011

Cognizant - Chennai

Development of UMT (User Management tool) application. Worked as a developer for this application. Contributed in designing and development of application as per users requirement.
