Work Experience

INTERN – DR Kannampilly's Diabetes Specialty Center Kochi (2019)

Interned For Assistance in the IT section of DR Kannampilly's Diabetes Specialty Center for a period of 2 months

- Assisted on various Problem-solving elements needed by the organization on their management system called Healthpplx
- Healthpplx is a Hospital/Clinic Management System. Maintenance and Assistance of this Software was done during this Internship

Projects

1. Car Share Management System(Rapport)(2018): Rapport is a web application that enables people to share their road-journeys with others. The system proposes an efficient transportation management system. It provides an opportunity to pool the user's ride with other people who have to travel the same route

2. Clinic Management System(DRK)(2019): The web application is designed for the requirements of Dr. Kannampilly's Specialty Centre. The application allows users to easily access their health reports, appointment timings and other treatment related information. By providing an online platform, it becomes easier for the patient, as well as the Doctor, to maintain an orderly relationship

Professional Certification Programs
